# HUN REACH BORIN

Shopify Theme Developer | Frontend Developer

## PROFILE

Frontend Developer & Shopify Theme Developer. I use my Computer Science background to bridge the gap between engineering and design. Specialized in end-to-end development, I translate concepts into fast, scalable, and clean code—building easy-to-maintain web experiences that prioritize performance and accessibility.

## KEY SKILLS

**Shopify Development:** Liquid, JSON Templates, Shopify CLI, Store 2.0, CSS3/Bootstrap.

**Frontend Core:** HTML5, CSS3, JavaScript (ES6+), Vue3, Bootstrap, Tailwind, Figma (UI/UX)

**Tools & Backend:** Git/GitHub, Vercel, VSCode, Postman, MySQL, PHP.

## WORK EXPERIENCE

Web Development Internship

SEP 2024- JAN 2025

National Television of Cambodia (TVK)

- Designed and developed the user interface for an internal HR system, translating visual concepts into responsive code using HTML, CSS, and Bootstrap.
- Improved User Experience (UX) by creating a clean, intuitive dashboard for staff tracking and salary automation, ensuring a seamless workflow for the team.

## VOLUNTEER

SEA Game 2023

Liaison office for International Technical Official

- Communication Skills:
  - Engaged with technical teams from various countries, including Germany and Singapore, enhancing cross-cultural communication and collaboration.
- Teamwork:
  - Worked closely with diverse teams to ensure smooth event operations, fostering a cooperative and supportive environment.
- Problem-Solving:
  - Quickly identified and resolved issues under pressure, ensuring seamless coordination and successful event execution.
